## SUMMARY

**Strategy Consulting & AI GTM Professional with expertise in Customer Success principles, Product Adoption, and Strategic Advisory bringing ~4 years of experience** partnering with business leaders, technical teams, and executive stakeholders to drive AI product adoption, customer engagement, and measurable business value. Skilled in consultative discovery, structured problem-solving, executive communication, and translating complex customer requirements into actionable recommendations, adoption roadmaps, and customer-centric solution narratives. Experienced in product enablement, executive stakeholder engagement, thought leadership, and cross-functional collaboration, with a passion for helping organizations maximize business value through technology adoption, customer-centric strategies, and strategic advisory.

## SKILLS

- **Customer Advisory:** Product Adoption, Discovery Workshops, Stakeholder Management, Customer Enablement
- **Strategic Advisory & GTM Enablement:** GTM Strategy, Solution Commercialization, Sales & Customer Enablement, Capability Building, Thought Leadership Development, RFP & Proposal Development
- **Research & Insights:** Market Intelligence, Competitive Intelligence, Executive Reporting, Data-Driven Insights
- **Soft Skills:** Executive Communication, Structured Problem Solving, Cross-functional Collaboration, Mentoring, Diplomacy & Tact, Fast-paced Prioritization

## PROFESSIONAL EXPERIENCE

### Analyst

Indium Software (Strategy Office)

April 2024 - Present

- Served as a **strategic advisor** to clients and leadership teams, conducting market intelligence, competitive benchmarking, and discovery workshops to identify business needs and delivering actionable recommendations for AI adoption.
- Led **customer discovery engagements**, facilitating structured discovery sessions to understand business objectives, identify challenges, and align AI solution recommendations with customer requirements.
- Collaborated with business, technical, and leadership teams to develop tailored **30-60-90-day AI adoption road maps** for enterprise customers, accelerating customer time-to-value and identifying expansion opportunities.
- Designed **product adoption enablement programs** for enterprise SaaS platforms (Databricks, Snowflake), creating playbooks, onboarding assets, and best-practice guides that accelerated internal and customer readiness for solution adoption.
- Developed the **AI Opportunity Radar framework** to identify high-value AI use cases across industries, enabling business stakeholders to prioritize transformation initiatives and align solution recommendations with strategic business objectives.
- Presented **executive-ready market and competitive intelligence to C-suite leaders** and 50+ cross-functional stakeholders through 15+ monthly insight reports, enabling informed decision-making on business priorities, AI strategy, and growth initiatives.
- Monitored account health across 20+ enterprise accounts, producing actionable insights that **surfaced at-risk accounts, informed proactive intervention strategies, strengthened customer health**, and drove solution growth within existing relationships.
- Fostered customer advocacy by developing customer-facing **thought leadership and sales enablement assets—including whitepapers, case studies, solution narratives, and training collateral**—that strengthened customer engagement, empowered internal teams to champion AI solutions, and accelerated customer adoption.
- **Mentored junior consultants** on research methodologies, structured problem-solving, and client engagement best practices – raising team capability and quality of client-facing deliverables.

Key Achievements:

- **Awarded "Rise and Shine"** Excellence in GTM strategy and project management.
- **Awarded "Agility in Action"** Adaptability and successful progression across multiple strategic functions within 2 years.

Senior Business Development Associate

Jun 2019 – May 2020

BYJU'S (Think & Learn Pvt. Ltd.)

- Managed the **end-to-end customer lifecycle** for 50+ customers per month, leading consultative discovery, product demonstrations, onboarding, and post-sales engagement to understand customer needs, recommended tailored learning solutions, and achieve an average conversion rate of ~60%.
- Delivered **personalized product demonstrations** that communicated product value, addressed customer concerns, and enabled informed purchasing decisions.
- Facilitated **onboarding and customer enablement sessions** by sharing platform best practices, usage governance, and adoption techniques, encouraging key users to champion product adoption and maximize long-term value.
- Facilitated **customer onboarding and enablement sessions** by educating users on platform best practices, effective usage governance, and adoption techniques while encouraging key users to champion product adoption, helping customers maximize value and long-term engagement.
- **Strengthening customer satisfaction & retention** through proactive bi-weekly follow-ups, resolving product usage challenges, driving feature adoption, and serving as a trusted advisor throughout the customer journey.
- Leveraged Lead Squared CRM manages customer interactions, track engagement across the customer lifecycle, maintain accurate account records, and support data-driven sales and customer engagement activities.
- Collaborated with **marketing teams to create targeted customer communication materials** while analyzing customer feedback, market trends, and buying behavior to improve customer engagement and support development initiatives.

Key Achievements:

- **Won "Best BDA Award"** with highest RCN consecutively for 2 incentive cycles.
- **Generated ₹60,00,000 revenue** with 110+ orders punched in first 12 months
